

STEP 1: Navigate to www.eyespecialist.com , and then click 'Patient Login' on the right and click the **"New Patient Registration"** button

STEP 2: Select 'Create an Account' on the right side.

NOTE: Even if you have a preexisting portal account (that is **not** specifically with mypatientvisit.com), you will still need to create a new account

STEP 3: Fill in all Sign-In information in the provided fields and create a unique password for the account.

NOTE: all information you enter must match the information on file with our practice.

If needed, our Practice ID is: **QGXBNT**. Your unique security code would have been emailed to you upon scheduling your appointment. If you need to obtain your unique security code call us at (727) 581-8706

STEP 4: Read the full "Terms & Conditions" and click the acceptance checkbox. Click "Register."

STEP 5: Choose and answer security questions that will help you if you forget your password

STEP 6: Patient Dashboard will appear. From here, you can access tools and information via your secure patient portal. **Complete the check-in process by clicking the "Preregistration" button and review your demographics information by following the navigation bar at the bottom of the screen.**

Please rest assured that all information provided is kept confidential, secure, and HIPAA compliant. Please call the office at 727-581-8706 if you have any questions or if we can provide any further assistance.
